## Thanks to our generous sponsor Make a Difference Trust

Our veterans and first responders suffer trials that only those who have been through them can understand. As a result, they are not the same person they were when they started their career, resulting in a struggle to reintegrate back into society. There comes a point in each veteran/first responder's life when they must try to make sense of the darkness in their soul and reclaim their own humanity and re-engage with the humanity of others. RESTORING OUR HEROES offers a process through their "Hole in the Wall" retreats, interspersed with wellness, suicide prevention, and post-traumatic growth teaching, where our heroes experience healing and transformation in their lives.
